RESULT 3 LOW CARBON TRANSITION ACTION PLAN FOR BUSINESSES

We are thrilled to share an exciting update on our ongoing project. Our partners have worked hard to develop the Result 3 of the REBUILT project, and we are pleased to announce the Rebuilt Action Plan.

The Action Plan of the REBUILT project identifies as its third Result called '**Low Carbon Transition Action Plan for Businesses**'.

The Action Plan is designed to produce a best practice guide to support the teaching of climate change-related issues in HEIs and equip professionals, executives, with special focus on SME managers with a transferable knowledge to accelerate progress towards net-zero emissions by 2050.

ReeNginering Business under climate crisis

This comprehensive plan presents various important components, including the framework that establishes foundational principles and strategies, best practices aimed at providing expertise in emissions measurement and climate strategy development, and the implementation and monitoring phase, ensuring the practical execution of outlined strategies with continuous assessment and adaptation.

Concerning the best practices, the action plan includes a collection of existing best practices, success stories, policies, tools and procedures aiming to foster methodologies to oversee the transition to net zero emissions. The Action Plan can be used either as stand-alone or for accompanying relevant training courses while it also features examples and practical information.

LAST PROJECT CONFERENCE MEETING IN ATHENS - 6 FEB 2024

A big thank you to everyone who joined us at the last REBUILT Project Conference, held on February 6th, 2024, hosted by the National and Kapodistrian University of Athens, Greece! It was an incredible day filled with insights, inspiration, and a shared commitment to building a sustainable future. From exploring the urgency of addressing the climate crisis to delving into risk assessments and hearing firsthand from businesses that have successfully transitioned to green practices, each session was a step toward positive change.

The unveiling of the REBUILT Online Campus marked a transformative moment in education accessibility. The presentations on best practices, low-carbon transition, and practical recommendations underscored our collective commitment to actionable change. As the conference concluded, we reflected on the wealth of knowledge gained and the connections made, setting the stage for a continued journey towards a resilient and sustainable tomorrow. #REBUILTConferenceRecap #SustainableFuture
